Detaljer

Dear INDØK students

The 1st course project report is an initial report on your course project.

- Submit one PDF, appendices included, by **1 November 2026**. Scripts and spreadsheets can be added in their own formats.
- Write 2000 words per person, ±20% (4000 words for a group of two), in Norwegian or English.
- The report is mandatory but not graded: you get formative feedback for the rest of the project and an approved/not approved result. If uploading to Canvas fails, submit by email.
- If you work alone, exchange feedback with another one-person group.
- Problem statements without a clear industrial or operational context, operational research anchoring and stakeholder will **not be accepted.**
- You may use the template *IND310 Template for Report Writing* on Canvas.

See please see lesson: "Project definition: Semester project reports format". The initial report only needs the sections you have reached so far

Suggested table of contents

Section	Description
Title	A clear, descriptive title that represents your project
Abstract	A brief summary of the objectives, methods, results and conclusions
Introduction	The background and purpose of the project
- Problem statement	What the problem is, for whom and in which context
- Research questions	The main question and a few prioritized sub-questions
- Related work (knowledge gap)	A few published studies or reports, and the gap your project addresses
Theory	The concepts and models you use to explain the problem
Data description (or case description)	How the data were collected, whether they are public and ready to use, and how and why you pre-processed them. For a case study, describe the case information concisely instead.
Methods	The methods and procedures you use to approach and solve the problem
Results	The findings, shown in charts, figures, tables and comparisons

Section	Description
Analysis	How the raw data became evidence
Discussion	What the results mean, their implications and how they relate to existing work
Conclusion	The main findings, their significance and suggestions for future research
References	All sources cited in the report
Appendix	Supporting material, with a short comment on each item

Research projects differ, so choose another structure if yours needs it.

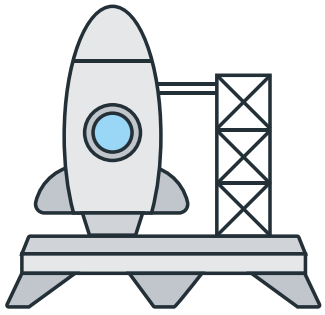

Only one student from each group should upload the file to avoid duplicate uploads.

Husk at denne innleveringen vil være tellende for alle i din INDØK gruppe.
